# Patient Survey Results Analysis Detail

P O Box 27122 EDINBURGH EH10 5WQ Tel: 0131 337 6535 Fax: 0131 337 8703 info@InTimeData.com www.intimedata.com

### **Background Information**

The original version of GPAQ was developed at the National Primary Care Research and Development Centre (NPCRDC) in Manchester and was widely used in UK general practice as part of the QOF for the nGMS. NPCRDC has now closed and administration has moved to Cambridge University.

GPAQ has been widely used in the UK and validated over a number of years. A new beta version of GPAQ is now available to encompass Direct Enhanced Services (DES) for Patient Participation through local surveys.

A small number of questions in GPAQ are designed to be identical to the 2011/2012 version of the national GP Patient Survey which will continue to run. This will enable practices to benchmark themselves against local and national scores.

Where available, InTime Data have listed the GPPS National scores alongside the GP / Practice GPAQ score.

### Calculation of results for each question

For questions where patients have been asked to rate your services, their responses are transformed to a scale of 0 to 100 of one mark. If you are rated as "Excellent" or "Very Good" (where these are the top answers) then you will have gained 100% of 1 mark. The scaling is determined by the number of options available for each answer but always ignores answers such as "don't know" or "does not apply" etc.

Three choice questions have marks of 100, 50 and 0 percent.

Four choice questions have marks of 100, 66, 33 and 0 percent.

Five choice questions have marks of 100, 75, 50, 25, and 0 percent.

Six choice questions have marks of 100, 80, 60, 40, 20 and 0 percent.

Your score is calculated by multiplying appropriate scale rating (0 to 100) by the number of patients who awarded you that point on the scale. This figure is shown in brackets after each category. This is done for every point on the scale.

The total is calculated by adding all the subtotals and divided by the number of respondents to that question, ignoring all non-responders, including "don't know" etc. In this way you score is not affected by people who do not

| Rating    | Patients | Percentage   | Sub-Total |
|-----------|----------|--------------|-----------|
| Very poor | 2        | 0            | 0         |
| Poor      | 0        | 20           | 0         |
| Fair      | 9        | 40           | 360       |
| Good      | 30       | 60 N         | 1,800     |
| Very good | 53       | 80           | 4,240     |
| Excellent | 53       | 100          | 5,300     |
| Total     | 147      |              | 11,700    |
| Score     |          | 79.59 (79.6) |           |

A perfect score is 100%

### Comments

I do not answer such politically correct questions!

Generally the service is pretty good trying to get an appointment is a nitemare (sic)

I find that when you require an xray this should be something the doctor can get set up and not have to write (as in my case) to another colleague as they are dealing with my issues. This just wastes time and resources on both the surgery and my own. I have now had an appointment with the assessment clinic only to find that 3 weeks on from my doctor appt. the letter has not been received. However I have had my xray now.

Dr Ashok took his time and was polite

the practice is excellent "all round"

Gillingham and Rainhan surgerys (sic) are very good. Delivering medication brilliant. Doctor excellent, listens to what you have to say. Very good

Very happy with the doctor seen today

Apart from a period of some 7 years I have been a patient of this practice since the days of Drs Montgomerie & Cox. From childhood. In recent years I have always found the staff helpful and friendly. As are most of the doctors. Dr Ashok I have already mentioned and consider him to be amongst the best I have come across. However over the years, particularly recently, I have noticed a tendency by some younger doctors to show fewer of the qualities I see in the older generation. I am sure for the most part this is due to the pressures they are under, they are however, at times brusque and seem to be continually governed by time constraints meaning you do not always get across your concerns regarding health problems

It is good to be able to see the same doctors everytime (Particularly Dr Ashok)

I think the surgery runs well, especially now they have a pharmacy on the premises.

try ringing in morning, get through 8.40 then no appointments after 10 minutes. Not helpful at all. Never get to see my own doctor that moved to the surgery

I find getting an appointment quite difficult. If I want Dr Patel it's a 2 week wait. I wanted an appointment for my daughter and was told a week and a half wait unless I phone at 8 a.m.! If you phone at 8 am you can't get through then I have to do the school run and by the time I get home and get through all the appointments are gone It is stressful!!!

Surgery updates by email

It is very hard to get through on the phone to make appointments

I have recommended this practice to many people over the past 3 years

It's very good

Good & definitely helpful

It is so nice to go in and see the Dr so smart and very clean I would like to see him all the time

I know we can't get an appointment all the time but happy to wait for same dr all the time

Very happy will like to see the same Dr but that doesn't always happen

Lovely staff and drs very helpful & kind and caring

No comments, quite happy with my GP practice

Doctor falling asleep while seeing me, completely wrong!

They could try and inform you if the doctors/nurses are running late (on some sort of notice board). Also checking in system, is a room number available to be shown

Emergency morning (phone) is always busy. It always takes me a hour before going through. Phone always busy in the morning from 8:00 am

SOMETHING TO LEAN ON TO FILL IN THIS FORM

Some of the GPs in the practice let the practice down.- my family has experienced some execellent (sic) help from the practice but also has felt very let down and disappointment with the level of help when speaking to the surgery and a GP not getting back to them.

Dr George is a good doctor for younger ages much better than the ones I've had before

Just lately appointment times have been getting extended i.e. the next week 7 days plus instead of 3-5 days

Something to lean on to fill the form in would help

Always seems to be running late. My time is just as important as yours. Poor planning?

My wife often rings the doctors on my behalf and receptionists will not give her any information even though I have given them a letter of permission to discuss my helath issues.

The staff are amazing always so helpful & they do all they can to "sort you out"

over all good

Reception staff are wonderful & helpful. Always do their best

Excellent treatment and service

I have always found your receptionists to be polite friendly and professional and always seem to be extremely helpful

Excellent, I feel very relaxed & felt she was caring & wanted to help & is helping

Reception staff are quite rude and unhelpful. Customer service is very poor - often ignored when you are waiting at the desk - even though they know you are there. Mixed messages - one person saying they have forms and another saying you don't. I am a receptionist myself & would be sacked treating customers this way

Dr MG Patel is great

I usually use the online facility to request repeat prescriptions & book either face to face appointments or telephone consultations with the GP. I find this very easy & an excellent improvement on accessing the practice by phone

I am happy with the surgery. The staff are under a lot of pressure, they have to see many patients, I wish the patients would take into consideration how busy they are.

Very happy with Dr Patel.

Very good and help full

Once you get an appt it is very good. I have seen Dr Patel for years he is an excellent GP.

Improvements need to be made to the reception at Woodlands. Get them to answer phones more promptly or even answer them at all! I call Rainham to make an appointment at Woodlands

I am exceptionally happy and trust Dr Patel with any matters of health. He always very professional + trustworthy + has been my doctor since I was a teenager. I will be very sad when he retires + will not be pleased with any other doctors like I have been with Dr Patel

I preferred it when Dr Patel had his own practice in Broadway - getting 2 see Mr Patel at an after work time means I have to wait longer (5 day plus)

I have only positive experiences of the staff at this practice. Receptionists are very kind + helpful. Doctors sympathetic + carina

I am very happy with the practice

Only problem encountered is trying to get help & advice over the phone

My doctor is very good and understanding what I say I am very happy with his work thank you very much

I would like to be able to see a doctor (in an emergency) on the same day. With an interpreter.

Some times saome of the receptionist are help full (sic) and 1 or to (sic) depending who you speak to can be very rude. Had this from rainham surgery, said I felt really ill and that I had COPD, I was still told I couldn't have an appointment. Had to wait

Like to see the practice work with the patient and not be so rigid about protocol. It's a waste of money & time making appointments when not needed

Have no particular comments, am happy with all aspects of surgery

Since being a patient since 1947 I have seen this practice expand and improve greatly, especially at the Woodlands Rd. Surgery. I consider myself priviledged to be a patient here

Early days I have only been a patient here for a few months, but so far have been very pleased and impressed by everything about this practice

Over the last 6 years because of moving house I have belonged to 3 different practices. This is by far the best practice. Dr Naveen is very nice and kind and understanding. All the receptionists and nurses are very pleasant. Its lovely to have a pharmacy in house, even though it's a separate company. Its lovely to see all the receptionists in uniforms, it makes it all professional, well done.

Found Dr Naveen understanding, listened and caring

Answered questions a lot also from my mums point of view and how Dr has helped me with ongoing problems with her

Brilliant!

It would be an improvement to be able to see preferred Dr more quickly, and time in waiting room shorter. It is understandable that some doctors are more popular

Rainham surgery - horrendous waiting times. I've had to wait over an hour for my appointment in the past without any explanation. Appointments been cancelled or times changed without notice on a regular occurrence. Dr Yazimaidi & Dr Naveen, caring and I would recommend to family and friends. See them. Other Drs I have seen have given awful advice. My daughter has eczema and I was told I wasn't drying her properly!!! As a new mum, I'm not stupid and it would be nice to be treated with respect and understanding

Thank you for trying to find out what's wrong with me. Thank you for your perseverance and patience.

My Dr today was the best one I've ever seen at this practice- will definitely ask to see him again.

Some of the interior door closers are very noisy, when you feel ill you feel worse when they shut so loudly as they are used so much.

Thank you

Very friendly & helpful, I like the opportunity to be able to meet different doctors, always have our needs met. Good, keep up the good work.

There is a brilliant pharmacy!

It would be nice to get an appointment the time you call up, not two weeks later!

very good service

Trying to get an apppointment for next day or even on the day with any doctor is hard

We are new to this area and very impressed with the standard of service

I should of brought it to the attention or surgery manager before now. However I would like to now (know?) a visit to a local shop a security guard advised me of issues regarding my medical conditions. I don't (want/do?) need an explanation - as to how or why

Only once or twice in 9 years have I been made to feel silly about coming to the doctors but I'venot seen those docs again, all happy with surgery and the receptionists are wonderful.

Very satisfied with the practice

Whilst the GPs & nurses are quite good, the support regarding blood tests etc. can be poor.

No further feedback required

The wait for a routine appointment, particularly to see a particular GP eg Dr Rushi or Naveen is too long - usually 2-3 weeks

My first appt on 14.04.15 was with Dr George I waited 45 mins without being seen and rebooked for the next day with Dr Rishi

Dr Rushi Rishi was really kind

This is a wonderful practice, the receptionist are so helpful, genuine and so supportive. The doctors I have always seen have always been so good. My medical care is catered for, I could not ask for more. The practice support our son and us that passed away with cancer better than the Macmillan nurses

Waiting time is not good!!!! Everytime I come here!!!

People who miss appointments without reason should be struck off the list here. They are a waste of time/money and other people could have those appointments who really need them

Nurse was a lovely lady made me feel at ease. Practice Manager is lovely and always happy to help and deal with problems that may arise.

Polite & friendly staff also welcoming. Sometimes the waits before appointments can be rather long which can be inconvenient if the appointment is made for my son as he does not enjoy long waits especially 15+ mins.

Having to ring at 8am, when everybody else is also trying to ring is very frustrating at times.

It would be helpful to add what room number your doctor is in when you use self check screen

Sometimes appointment take longer to get if you prefer to see female dr. not always comfortable discussing problems with male G.P.
